### Assembly Instruction

#### Wall Mount Installation Guide

##### Hardware List

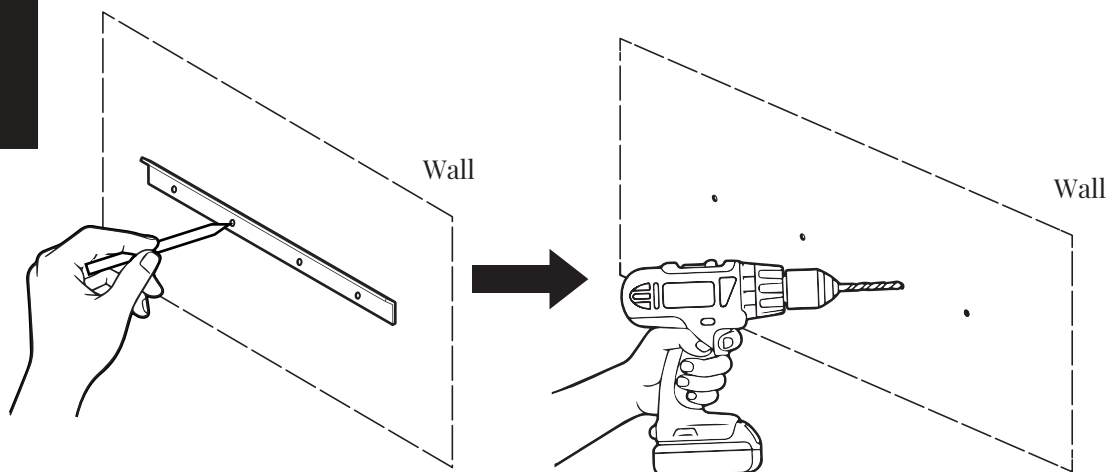

##### Parts List

##### Note

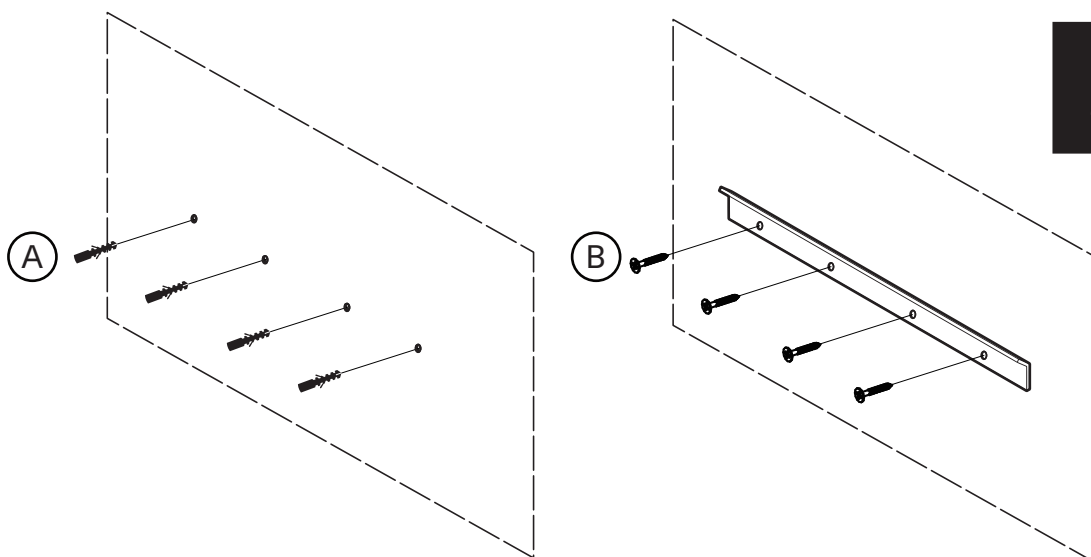

1. Read instructions before assembly.
2. Use wall fixings suitable for your wall.
3. Ensure the product is securely fixed before use.

1

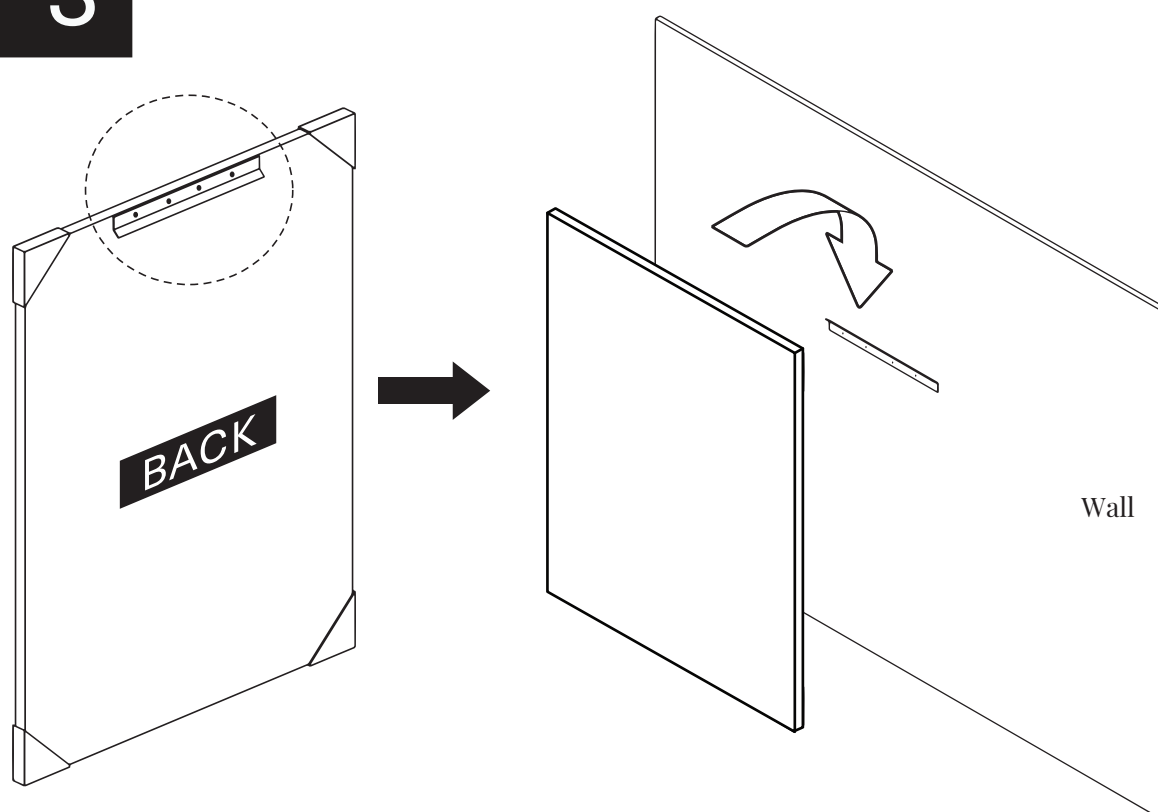

Place the metal cleat horizontally against the wall and ensure it is level. Mark the hole positions, then drill the holes.

2

Insert the plastic anchors. Position the metal cleat over the drilled holes and secure it with the screws. Ensure the cleat opening faces upward.

3

Lift the artwork and hook the cleat onto the wall cleat. Lower the product until it is fully engaged and securely seated.

## Important!

Improper installation may cause the product to fall, resulting in damage or injury. If you are unsure about installation, consult a qualified professional.
