#### Note

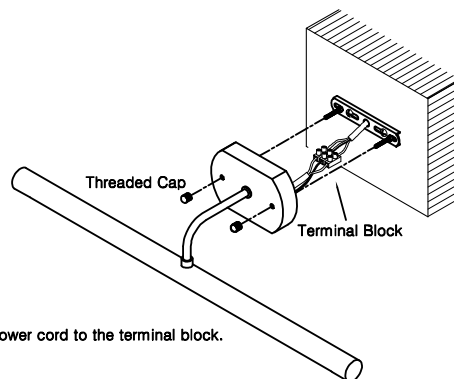

1. Turn off the main power supply before starting the installation.
2. Check all parts and read the instructions before installation.
3. Ensure all wire connections are secure and properly insulated.
4. Handle electrical wires and tools with care to avoid damage or injury.
5. Do not restore power until the fixture is fully installed.
6. We recommend that installation of this lighting fixture be done by a licensed electrician.

1

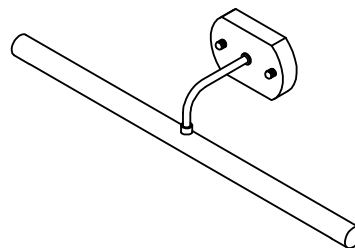

1. Use a drilling machine to drill two hole into a solid ceiling, then insert the nylon plug into the hole. Drive the self-tapping screw through the mounting plate and tighten it into the nylon plug until secured.

2

2. Connect the power cord to the terminal block.

3

3. After the lamp body covers the mounting plate, tighten the threaded cap.  
Installation completed

#### Important Safety Instruction

Please select a solid and level surface for mounting. For installation on gypsum board, or decorative ceiling panels, additional reinforcement is required; Prior to installation, verify that the luminaire functions correctly by performing a test; Before installing or removing the bulb, please turn off the power; Do not allow children to touch the lamp holder or bulb. Bulbs that have been on for a long time will be hot to the touch; please do not touch them.

220–240V a.c., 50Hz LED; Max. 6W ta: 25°C

If the external flexible cable or cord this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
