Note

1. Turn off the main power supply before starting the installation.
2. For safety, it is recommended that two people assist during installation.
3. Carefully read all instructions and check that all parts are included before beginning installation.
4. Ensure all wire connections are secure and properly insulated.
5. Handle electrical wires and tools carefully to avoid damage or injury.
6. Do not restore power until the fixture is fully installed and securely mounted.

1

1. Take all parts out of the box and place them on the carpet or floor.
2. Install the expansion tubes into the ceiling.
3. Attach the mounting plate to the expansion tubes using screws.
4. Attach tube D to the lamp body A. Tube E is used for adjusting the height. If the customer wants a higher position, they can install Tube E. If the customer prefers a lower position, they can replace one of the tubes D with Tube E.
5. Connect wires to the terminal block (ensure power is OFF).

7. Lift the canopy B, cover the mounting plate C, and tighten the screws.
8. Install the light bulbs (not included).
9. Attach Glass F to the lamp body A.

220-240V a.c, 50Hz 11*G9; Max.40W

If the external flexible cable or cord this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
