Assembly Instruction

Product Name: Zeny Brushed Gold Glass Chandelier

Hardware List

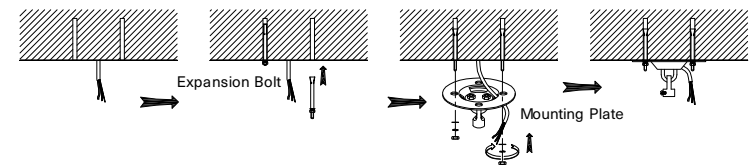

Parts List

Note

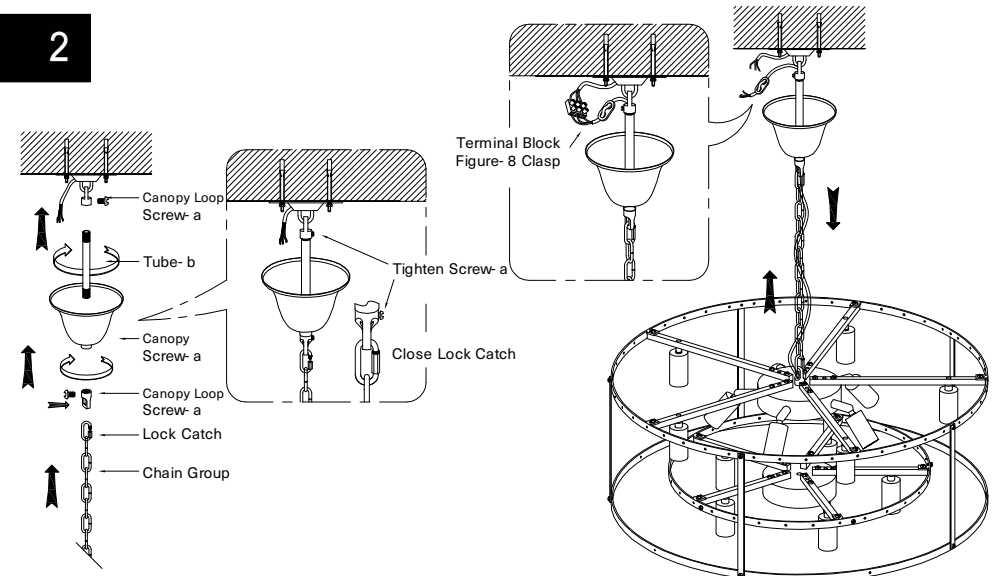

1. Turn off the main power supply before starting the installation.
2. We recommend that installation of this lighting fixture be done by a licensed electrician.
3. Check all parts and read the instructions before installation.
4. Ensure all wire connections are secure and properly insulated.
5. Handle electrical wires and tools with care to avoid damage or injury.
6. Do not restore power until the fixture is fully installed and securely mounted.

1

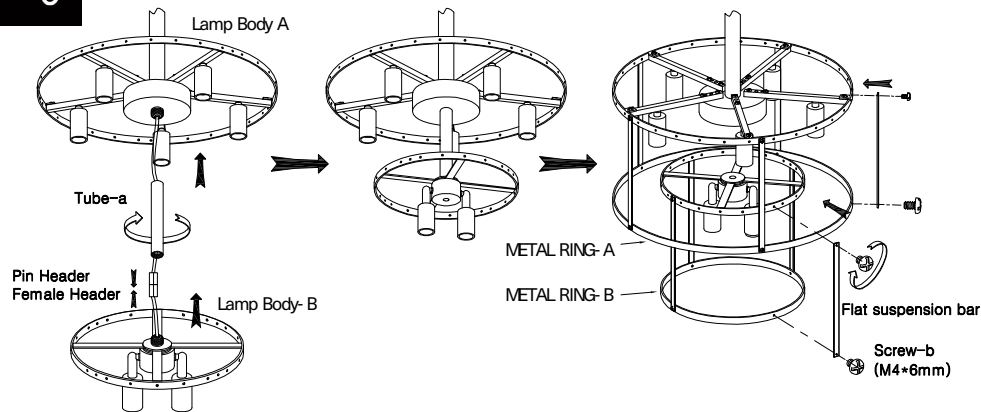

1. This product is heavy(50Kg), Use a drilling machine to drill four hole into a solid ceiling,. Insert the expansion bolts into the holes and tighten the nuts firmly.
(Cut away protruding part of the expansion bolt to avoid interference with the canopy.)
Take off the nuts from the installed expansion bolts. Align the holes of the mounting plate with the expansion bolts, place the plate over them, then reinstall and tighten the nuts securely.

2

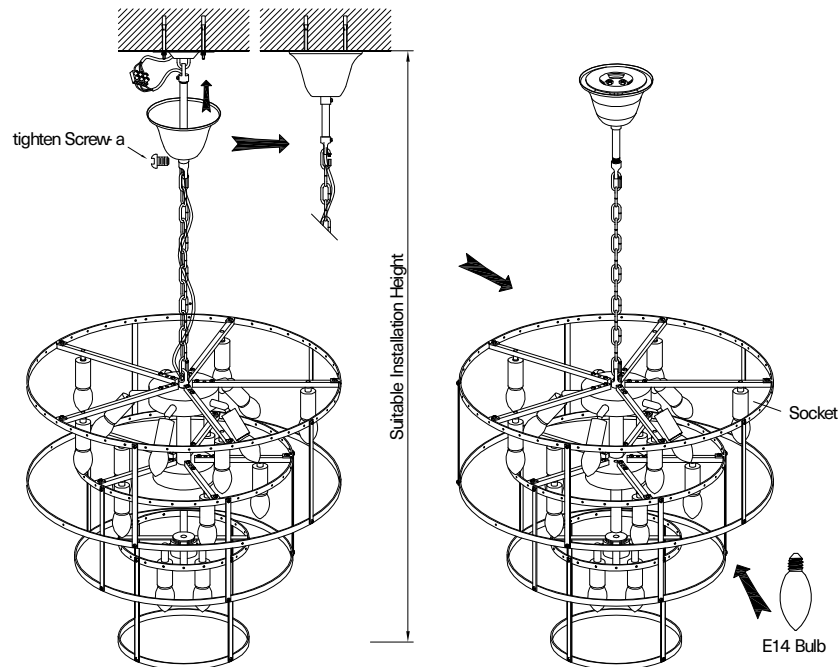

2. Before installation, determine the desired overall mounting height, then select the appropriate length of the chain group and cut off any excess chain. (note: the lamp body itself has a height of 70 cm.)
Screw tube- b into the canopy loop and tighten screw- a.
Insert tube- b through the canopy, then screw canopy loop into the tube- b, and tighten screw- a too.
Connect the lock catch at the top of the chain group to the canopy loop, and connect the lock catch at the bottom to the lamp body, then close the latches of both lock catches to ensure safety.
Route the power cord through the chain / tube- b and canopy loop up to the mounting plate.
Pass the figure- 8 clasp through the power cord as shown in the diagram above,
Connect the power cord to the terminal block respectively.

3

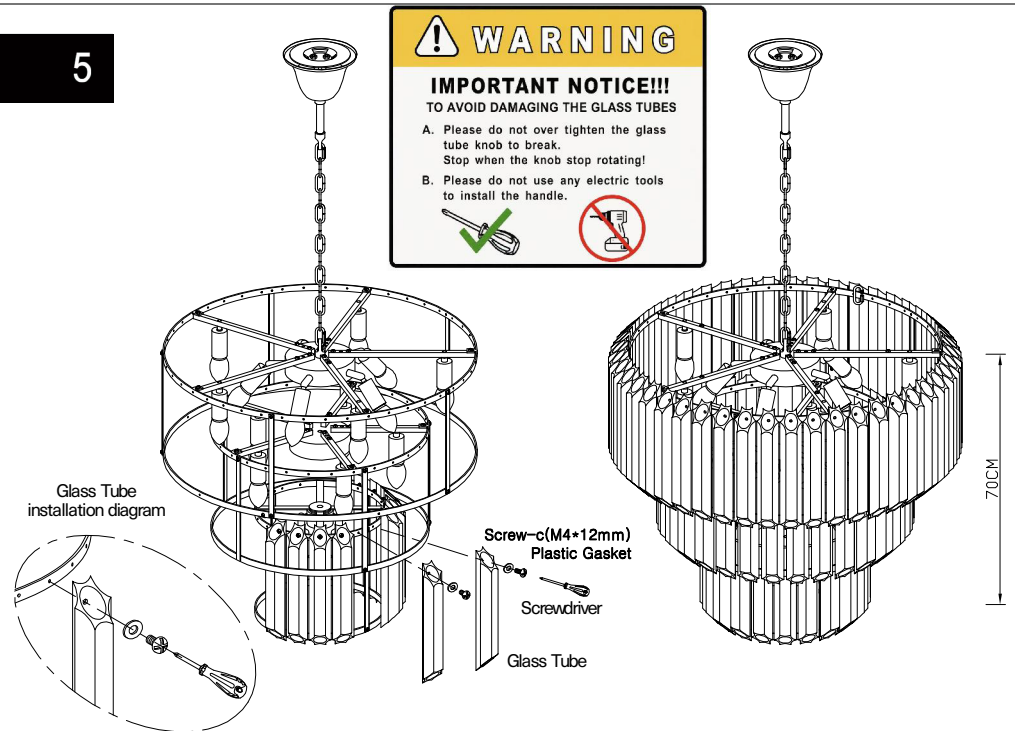

3. Screw tube- a into lamp body- a, connect the pin header and female header.
Then screw lamp body- b into tube- a.
(To avoid the wires becoming knotted, turn the lamp body- b counterclockwise 5- 7 times before secure it.)
Connect the lamp body, metal ring -a, and metal ring -b together using the flat suspension bar,
and secure with the screw- b .

4

4. Reconfirm and adjust the product height,
Push the canopy upward against the ceiling, then tighten screw- a.
Install bulb into socket.

5

5. Install in the following order from bottom to top,
secure the glass tube+ plastic gasket onto the lamp body using the screw- c in sequence.
NOTE: Glass is fragile. do not over tighten the glass tube knob to break.
WARNING: Only screwdrivers are allowed for installation. Do not use any electric tools to install the glass tube.
Installation completed

Important Safety Instruction

Please select a solid and level surface for mounting. For installation on gypsum board, or decorative ceiling panels, additional reinforcement is required ;
Prior to installation, verify that the luminaire functions correctly by performing a test ;
Before installing or removing the bulb, please turn off the power ;
Do not allow children to touch the lamp holder or bulb. Bulbs that have been on for a long time will be hot to the touch; please do not touch them .

220 - 240 V a.c, 50 Hz E14 ; Max. 17 * 25 W ta : 25 °C

If the external flexible cable or cord this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
